

3400 SERIES

Push/Pull Hand Control

FREEDOM...
it's an essential part of life!

expand your world...

expand your world...

Foam Grip Straight Handle

3400F (58566)

This hand control fits comfortably in the palm of the driver's hand. This control can be equipped with a foam handle or knob grip by your local authorized dealer. Horn and dimmer switches are optional. Bent Brake Rod is for specific vehicles.

Mobility Products & Design products have been thoroughly tested to meet the most stringent standards of safety and durability.

Along with safety, all products are designed to comfortably fit your hand whether it's held from the top, side, or front (this also eliminates wrist fatigue). Optional horn and dimmer switches are within easy reach.

Easy to Maintain

Mobility Product and Design uses only quality materials. Hand controls are made of lightweight, brushed aluminum and chrome which resists rust and corrosion and is easy to keep clean. We also use long-lasting, self-lubricating aircraft ball joints for the brakes and throttle linkages. Cam drives are employed for smooth operation and longer wear. Each hand control features a reliable bearing and bushing system in the area of greatest stress and wear (the main pivot point and shaft housing block).

Knob Grip Straight Handle

3400K (58513)

Our controls are built to be reliable, providing you with years of dependable performance. We back their strength with a full two-year warranty that gives you peace of mind as well as freedom.

Easy to Use

Your new hand controls are simple to operate. **PUSH FORWARD TO BRAKE, PULL BACK TO ACCELERATE.** A non-handicapped driver can use your vehicle without adjusting or disconnecting your hand controls.

Keeping you actively involved in your world.

Many states either require or recommend that anyone using our products have a driver evaluation prior to installation. We recommend all customers have a driver evaluation performed by a qualified evaluator. If you should need assistance, contact www.driver-ed.org or Mobility Products & Design at toll free 1.800.488.7688.
